

EDUCATION

The University of Tokyo

Apr. 2026 – Mar. 2028 expected

M.S., Electrical Engineering and Information Systems, Graduate School of Engineering

Minematsu–Saito Laboratory. Research on speaking support for Japanese learners, speech and language processing, and multimodal interaction.

Kyoto University

Apr. 2022 – Mar. 2026

B.Eng., Electrical and Electronic Engineering, Faculty of Engineering

Yoshii Laboratory. Bachelor's thesis on emotion-transition-controllable video summarization using multimodal emotional features.

CURRENT RESEARCH

Speaking Support for Japanese Learners

Apr. 2026 – Present

The University of Tokyo · Minematsu–Saito Laboratory

- Study spontaneous speaking support for Japanese learners using speech, language, and multimodal context.
- Develop multidimensional Japanese pronunciation evaluation covering pronunciation, rhythm, fluency, pitch-related cues, mora timing, and pauses.
- Separate learner-facing feedback from diagnostic logs, suppress scoring when evidence is unreliable, and refine behavior through structured logs, automated tests, and failure review.

PUBLICATIONS

Kewei Liu, Kazuyoshi Yoshii. “Emotion Transition-Controllable Video Summarization Based on Multimodal Emotional Features.” *APSIPA Annual Summit and Conference (APSIPA ASC)*, 2026. **Accepted for presentation.**

SELECTED RESEARCH

Emotion-Transition-Controllable Video Summarization

Undergraduate research

- Proposed a video-summarization method that follows a user-specified emotional trajectory while retaining important scenes.
- Integrated visual, audio, and text cues with reliability-aware multimodal fusion and selected scenes in temporal order using dynamic programming.
- Led experiment design, preprocessing, implementation, evaluation, analysis, and manuscript preparation on TVSum.

EDUCATION & PRODUCT

China Tabito Education Group — Shareholder · Education R&D & Product Development

Current

tabitoedu.com

- Work on education research, curriculum and learning design, teaching materials, educational content, and education product development for students preparing for Japanese university admissions.
- Design physics curricula and materials for EJU, the Common Test, and university entrance examinations, informed by classroom practice and recurring learner difficulties.
- Continue physics instruction for international students as part of the broader curriculum, content, and product-development work.

EXPERIENCE

Coach Academy — Former Instructor & Admissions Advisor

4 years

〒590 0000 ・ Kansai, Japan

- Taught mathematics and physics in large-group classes and one-to-one lessons for international students.
- Advised on personal statements (履歴書), oral examinations, interviews, school selection, application schedules, and application planning.

Kyoto University — Electrical & Electronic Circuits OA

Oct. 2024 – Mar. 2025

Supported circuit-theory coursework and student exercises.

Kyoto University — International Student Tutor

Apr. 2025 – Mar. 2026

Supported international students with coursework, academic communication, course planning, and university life.

RECOGNITION & ACTIVITIES

Scholarships: Ichikawa International Scholarship Foundation Scholar (2023–2024); MEXT/JASSO Honors Scholarship (2022–2023).

Award: Excellence Award, Electrical and Electronic Circuits Poster Presentation, Kyoto University (2023).

Kyoto University activities: Karaoke Club; COLORS! (fashion club).

SKILLS & LANGUAGES

Programming	Python, PyTorch, NumPy, pandas, scikit-learn, MATLAB
Research	Multimodal learning, experiment design, cross-validation, ablation studies, statistical evaluation, failure analysis
Speech / Audio	MFCC-DTW, F0, rhythm, pause, and mora-timing analysis
Development	Git/GitHub, Linux, Docker, pytest, structured logging, HTML/CSS, LaTeX
Languages	Chinese · Japanese (JLPT N1) · English (TOEFL iBT 81) · French (basic)
